These are Mario Power-Up Themed door tags. Here's how I made them:

- I printed out the power ups:
 - Stars: I printed out them on Yellow paper.
 - Clouds: I printed them on White paper.
 - Mushrooms: You have some options:
 - I printed them in Color on white paper,
 - OR you can print them in black and white and then color in their spots
 - OR you can print out the spots onto red/green paper and cut and paste them onto mushrooms
- I then cut a piece of construction paper in half (making in 8.5" x 5.5"). I put the power up on one side and their name on the other written in a Mario Font:
 - Here is a link to the Mario Font <http://www.dafont.com/mario-luigi-2.font> so that you can type their name in the Mario Font. In Windows XP, you can add fonts by going to the Control Panel and clicking on "Fonts".
